IE27S

Product Categories: Uncategorized
Product Page: https://www.wilsonandcousins.com/product/ie27s/

Product Summary

2.5" Straight Pattern Brass Gate Valve. 2.5" Female NPT x 2.5" Male Hose thread.

Product Description

2.5" Straight Pattern Brass Gate Valve with non-rising stem and solid inlet. For use on hydrants, standpipes and fire pump test connections rated for up to 300 lbs (2070 kPa) applications. The IE27s is made up of a brass body and brass trim and comes with a red round handle, and optional speed handle. A hex is provided on

the female NPT inlet and male hose thread on the outlet. Specify hose thread.

FINISH: Cast Brass

OPTIONS: - Cast Chrome - speed handle

Engineering Specifications

Wilson & Cousins, **IE27S** is a 300lb (2070 kPa) gate valve used primarily to protect fire hydrants and standpipe systems from damage that can occur if they are used for throttling. The **IE27**S is particularly used when space limitations or appearance preclude a permanent-type installation.

Dimensions

A= 12″ (305mm)

B= 4.02″ (102mm)

C= Subject to Hose Thread
